

Measuring Lobster

- ✓ No person shall harvest or attempt to harvest spiny lobster by diving unless they possess, while in the water, a gauge made for measuring lobster.
- ✓ All lobster must be measured in the water, if harvested by diving.
- ✓ Lobster carapace must be **greater than three (3) inches** to be harvested or possessed. All undersized lobsters must be released unharmed. The carapace measurement begins at the forward edge between the rostral horns, excluding any soft tissue, and proceeds along the middle to the rear edge of the carapace.
- ✓ All recreationally harvested lobster must remain in whole condition while at sea.
- ✓ Tails can only be separated on land. When the tail is separated from the body, it must be greater than 5-1/2 inches.

Lobster carapace must be greater than three (3) inches.

Facts for All Seasons

Possession: Lobster must be of legal size before they are in possession. NOTE: You may not have lobster in your possession in Everglades National Park (Florida Bay).

Bag Limits: The Federal bag limit cannot be combined with the State bag limit. In addition, people who are NOT actively harvesting or are not properly licensed (when a license is required) may NOT be counted for purpose of bag limits.

License Requirements: Recreational harvesters are required to possess a valid Florida Saltwater Fishing License with a current spiny lobster permit. Consult your license agent for exemptions.

Gear: Harvesting or attempting to harvest spiny lobster using any device that will or could puncture, penetrate, or crush the exoskeleton (shell) or the flesh of the lobster, and the use of such devices is prohibited.

Commercial Lobster Traps and Ghost Traps: It is a felony to molest, damage, or take lobster from traps in State or Federal waters. (Recreational trapping is prohibited.)

Coral is protected from damage and removal in State and Federal waters. Do NOT touch, hold on to, stand on, break, anchor on, flip over or otherwise harm coral. It is a fragile living animal.

Egg-bearing (berried) lobster regardless of species must be released unharmed. Stripping egg-bearing females of eggs, and possession of spiny or ridged slipper lobster tails from which eggs have been removed is prohibited. Eggs are an orange, yellow, brown, or red mass found covering the underside of the lobster's tail.

Dive Flag: All divers and snorkelers in the water are required to prominently display a diver down flag. Vessel operators should slow to idle speed within 100 yards of a dive flag.

“Bully-netting” is using a circular frame attached at a right angle to the end of a pole and supporting a conical bag of webbing. Possession of bully nets is prohibited in Everglades National Park (Florida Bay).

“Hoop-netting” is using a frame, circular or otherwise, supporting a shallow bag of webbing and suspended by a line and bridles. Possession of hoop nets is prohibited in Everglades National Park (Florida Bay).

“Artificial Habitats in State Waters”: Placing artificial habitat or harvesting lobster from artificial habitat is prohibited. Artificial habitat is any material placed in the waters of the state that is reasonably suited to providing cover and habitat for spiny lobster. Such material may be constructed of, but is not limited to, wood, metal, fiberglass, concrete, or plastic, or any combination thereof, and may be fabricated for this specific purpose or for some other purpose. Artificial habitat does not include fishing gear allowed by FWC or artificial reefs permitted by Florida DEP or Army Corps.

This is not an official publication of lobster season rules and regulations.
